

What we offer

In pursuit of our aims and objectives we provide the following services to individual members, corporate (private sector) organisations and public sector organisations:

Services and benefits to individual members

Listed below is a summary of the services we currently offer to our members:

- access to a network of like-minded professionals and business people; both on-line (on the website) and off-line (at events)
- access to the members-only web-based networking system which provides a wealth of knowledge, privileged information, discussion forums and business networking tools
- access to training in the art and science of networking
- signpost members to opportunities for promoting economic development of their communities of interest
- provide a platform through which members can advice and provide innovative ideas to key government officials; professional institutions and other economic policy makers.
